

# PRIYANSH SHARMA

Data Analyst - Python | SQL | Power BI | Excel | Gen AI  
Delhi, India

## PROFESSIONAL SUMMARY

Detail-oriented and motivated Aspiring Data Analyst with strong foundational knowledge in data analysis, statistics, and machine learning concepts. Proficient in Python, SQL, and data visualization tools such as Power BI, with hands-on academic and project experience in cleaning, analyzing, and interpreting data. Demonstrated ability to translate data findings into meaningful insights, adapt quickly to new tools, and work effectively in collaborative environments. Seeking an entry-level Data Analyst role to contribute analytical value while building practical industry expertise.

## TECHNICAL SUMMARY

**Programming Languages :** Python (Pandas, Numpy, Matplotlib, Seaborn, Scikit-learn), SQL (Microsoft SQL Server, MySQL)

**Data Visualization :** Power BI, Tableau, Microsoft Excel (Pivot Tables, Power Query, Charts)

**Generative AI :** Prompt Engineering, ChatGPT, Gemini, *Github Copilot*

**Analytics and Statistics :** EDA, Statistical Analysis, Hypothesis Testing, Linear Regression, Logistic Regression

**SQL Skills :** Joins, CTEs, Window Functions, Query Optimization, Data Modeling

**Core Competencies :** ETL Processes, Data Cleaning, Data Transformation, Dashboard Development, KPI Reporting, DAX

## KEY PROJECTS

**Swiggy Order Data Analysis (Excel) :** Automated dashboards using Pivot Tables and Power Query, improving reporting efficiency by 45%.

**Adventure Works (Power BI) :** Built interactive sales dashboards using DAX and KPIs, delivering 30% faster insights and 40% reduction in manual reporting.

**Streaming Project (SQL) :** Developed advanced SQL queries to analyze subscriptions, revenue, content, performance, user behavior using Joins, CTEs, Window Functions, and Views.

**Car Sales Prediction (Python) :** Built a Linear Regression model to analyse car sales drivers and predict sales using data preprocessing, EDA, Pandas, and Scikit-learn.

**Bank Loan Default Prediction (Python) :** Built a Logistic Regression model to predict loan default risk using customer loan data, preprocessing, feature analysis, and model evaluation with Pandas and Scikit-learn.

## EDUCATION

**Bachelor of Commerce (B.Com.) Programme**  
University of Delhi

**July 2023 – September 2026**

**Data Analytics Program**  
IIT Guwahati

**July 2026**

**Data Science and Analytics Program**  
Analytix Labs | IIT Guwahati

**Ongoing**

## CERTIFICATIONS

---

**Certified Data Analyst in Python** — Data Cleaning, analysis, visualization, and basic statistical techniques using Python

**SQL Certifications** — *HackerRank SQL (Advance)* certifications covering joins, CTEs, window functions, views, and analysis techniques.

**Deloitte Australia Data Analytics Job Simulation** — Applied data analysis and dashboard storytelling to solve consulting-style business problems.

**Certified Data Analyst, IIT Guwahati** — Covered end-to-end analytics workflows, including data preparation, KPI reporting, and insight generation.

**Kaggle Certifications** — Completed practical courses in Python, Pandas, SQL, data cleaning, visualization, and machine learning fundamentals.

## KEY ACHIEVEMENTS

---

- Completed Deloitte Australia, Accenture and Quantum Data Analytics Job Simulations, applying data analysis skills to business problems and decision-making scenarios.
- Completed 35+ hands-on, real-world data analytics exercises and projects using Excel, SQL, Power BI, and Python, covering gaming industry analysis, retail sales, IT help desk case management, customer segmentation, linear regression, and logistic regression modelling.
- Developed comprehensive portfolio showcasing end-to-end data analysis projects across Excel, SQL, Power BI, and Python.
